FREE PRACTICE

P6

A great start to our weekend. We knew from the test that the bike was in a good place. Our goal was to get up to speed quickly, so we can develop the bike as we get deeper into the race weekend. We did exactly that. A solid finish lapping 3 tenths quicker than we did on our last visit.

SUPERPOLE

P6

My best qualifying result in the World Championship yet! We took another good step from free practice, changing the bike ever so slightly, but my understanding of the circuit was getting better every session. A good consistency and lap time saw me start on the 2nd row of the grid.

WARM UP 1

P11

A steady start to Saturday morning. Knowing we had a good result yesterday, I felt relaxed and prepared going into Saturday. My goal was to see where abouts popular overtaking spots were, tried some moves, made them stick. Giving me some good knowledge for our first race of the weekend.

RACE 1

P2

My best result in a world championship! An incredible race and the best of my career so far. Battling with some fast guys, leading parts of the race and taking home some silverware ended our Saturday perfectly. I had a real confidence boost with myself, always learning and understanding competing at this level.

WARM UP 2

P20

Not the best warm up. We decided as a team we would try to do the same as yesterday, make some passes and get into a rhythm. Unfortunately, it wasn't the case. Track was a little too busy and stopped me finding a good time. Lesson learned, next time we will try to do some work alone to help with the set up & understanding of the bike.

RACE 2

DNF

A small moment lead to a bad result here. I had a slide coming out of Turn 2, I saved it, but due to a sudden cut of speed, another rider drove into the back of me causing us to go down into the gravel. Despite Sundays result, what a weekend myself and the team have had in Italy, a massive boost for our final round of the season in Jerez.

Looking Ahead — ROUND 8 · CIRCUITO DE JEREZ

After the success in Italy. I look forward to finishing on a high in Jerez for the final round of the season. A circuit I know well, with super fast corner and a flowing circuit, I can't wait to get going!
