World Sportbike Championship | PHR Performance | Triumph Daytona 660

HARRISON DESSOY

PHR PERFORMANCE

PETER HICKMAN RACING

P12	13 PTS
CHAMPIONSHIP	POINTS SCORED

FREE PRACTICE 1 — P21

A tricky start to the weekend, I didn't feel 100% with the bike from the opening laps. With the circuit being dusty, the lack of grip didn't help. However, we tried our best to get a good setting in our debrief for the final Superpole of the year.

SUPERPOLE — P22

With 50 degrees track temp, Superpole was a hot one! I tried to set some lap times on my own to find my own pace. I set a good time on my own, but after 2-3 laps I felt I didn't have as much grip from the tyres, so it was very tricky to improve towards the end of the session.

WARM UP 1 — P13

A better session Saturday morning, we were struggling with edge grip and spinning of the rear tyre, so we changed something with the rear shock to try and fix it. It definitely seemed to make it better, with setting my fastest time of the weekend, it put us in a good place for the race.

RACE 1 — P7

From 22nd on the grid to 7th, I only ended up 5 seconds away from the leading group. It was a good comeback ride, I didn't give up chasing the riders ahead and managed to claw back a good finish after a tricky starting position.

WARM UP 2 — P11

With chances of rainfall coming on Sunday, we were greeted to a very dark and cloudy Sunday morning. The track was dry, which meant cooler track temp. It changed the feeling of the bike ever so slightly, and helped me come to the conclusion that I can't really stop certain things that the bike is doing with sliding and movement, instead work on controlling those matters instead. The colder conditions helped with the bikes grip levels and gave us some more information to work with for the next step with the bike!

RACE 2 — P12

Our final race of 2026! My launch wasn't so bad and I immediately tried to find my way through the pack. I made some more positions up, whilst the laps ticked down. It was a scrappy race, trying to fight and keep positions as hard as I could. Finished in P12 with some more championship points scored, one of the toughest races I've been in.

Looking Ahead — BIKE SHOW · EICMA, ITALY

That concludes the racing for 2026, but I am looking forward to my trip to the Eicma bike show in Italy at the start of November. I'll be going with a few chaps from the team, to try and arrange some deals and partnerships for 2027, I'm looking forwards to seeing how it goes!
